The mxy series where created for graphs annotations. I first tried to mimic the very precise hand-writting of same high-quality mathematical books. But, I must admit that I failed in trying to give to these series any kind of human feel.

Anyway, creating these series was quite refreshing in comparison to the quite complicated design of mbb series I was working on at that time. Thus, what should have been limited to simple Roman or Greek characters became a quite large set of fonts that could have been used for full typesetting (even if it would mean a "poor quality typesetting"), like academic material (practical works, corrections, ...).

One of the main characteristic of these fonts is that the pens with which they are drawn do not depend on the point size. This has for consequence that some details may be totally black.

By now, the set is not complete. It seems that a whole extensible font must be designed since the Computer Modern's one does not fit the look of mxy series. Also, small caps may be added to. Moreover, I've not written any LATEX-package yet since I don't think that mxy can be distributed yet. By the way, plainTEX-users may try `mxyfonts.tex` as an input file. (This paragraph is dedicated to a very good friend of mine.)

$$s^2 = \frac{1}{n-1}\sum_{i=1}^{n}(x_i - \bar{x})^2 = \frac{1}{n-1}\sum_{i=1}^{n} x_i^2 - \frac{n}{n-1}\,\bar{x}^2$$

$$= \frac{1}{29}\bigl(24 \times 1^2 + 6 \times 0^2\bigr) - \frac{30}{29}\,0{,}8^2 = \left\uparrow \overbrace{\underbrace{\frac{24}{29} - \frac{30}{29}\,0{,}8^2 \approx 0{,}1655}}\right\downarrow .$$

$$\int_{-\infty}^{\infty} \mathrm{e}^{-x^2/2}\,\frac{\mathrm{d}x}{\sqrt{2\pi}} = 1.$$

$\int_{-\infty}^{\infty} \mathrm{e}^{-x^2/2}\,\mathrm{d}x/\sqrt{2\pi} = 1$. $s^2 = \frac{1}{n-1}\sum_{i=1}^{n}(x_i - \bar{x})^2$

Comparisons

Definitely, mxy series cannot be used with Computer Modern's ones:

On November 14, 1885, Senator & Mrs. Leland Stanford called together at their San Francisco mansion the 24 prominent men who had been chosen as the first trustees of The Leland Stanford Junior University. They handed to the board the Founding Grant of the University, which they had executed three days before. This document—with various amendments, legislative acts, and court decrees—remains as the University's charter. In bold, sweeping language it stipulates that the objectives of the University are "to qualify students for personal success and direct usefulness in life; and to promote the publick welfare by exercising an influence in behalf of humanity and civilization, teaching the blessings of liberty regulated by law, and inculcating love and reverence for the great principles of government as derived from the inalienable rights of man to life, liberty, and the pursuit of happiness." ¿But aren't Kafka's Schloß and Æsop's Œuvres often naïve vis-à-vis the dæmonic phœnix's official rôle in fluffy soufflés? On November 14, 1885, Senator & Mrs. Leland Stanford called together at their San Francisco mansion the 24 prominent men who had been chosen as the first trustees of The Leland Stanford Junior University. They handed to the board the Founding Grant of the University, which they had executed three days before. This document—with various amendments, legislative acts, and court decrees—remains as the University's charter. In bold, sweeping language it stipulates that the objectives of the University are "to qualify students for personal success and direct usefulness in life; and to promote the publick welfare by exercising an influence in behalf of humanity and civilization, teaching the blessings of liberty regulated by law, and inculcating love and reverence for the great principles of government as derived from the inalienable rights of man to life, liberty, and the pursuit of happiness." ¿But aren't Kafka's Schloß and Æsop's Œuvres often naïve vis-à-vis the dæmonic phœnix's official rôle in fluffy soufflés? (¡THE DAZED BROWN FOX QUICKLY GAVE 12345–67890 JUMPS!)

On November 14, 1885, Senator & Mrs. Leland Stanford called together at their San Francisco mansion the 24 prominent men who had been chosen as the first trustees of The Leland Stanford Junior University. They handed to the board the Founding Grant of the University, which they had executed three days before. This document—with various amendments, legislative acts, and court decrees—remains as the University's charter. In bold, sweeping language it stipulates that the objectives of the University are “to qualify students for personal success and direct usefulness in life; and to promote the publick welfare by exercising an influence in behalf of humanity and civilization, teaching the blessings of liberty regulated by law, and inculcating love and reverence for the great principles of government as derived from the inalienable rights of man to life, liberty, and the pursuit of happiness.” ¿But aren't Kafka's Schloß and Æsop's Œuvres often naïve vis-à-vis the dæmonic phœnix's official rôle in fluffy soufflés?
